

NIGHT VISION FUNDAMENTALS

1 DAY CLASS

Outline

1p-1a (This class starts in the early afternoon and continues until after midnight)

- Rifle shooting Fundamentals
- Weapon and NVG setup
- Tactical application, theory and practical
- Surgical precision
- Speed shooting
- Communications
- Camouflage and Movement
- Team and single work

Description

This class can be used to gain familiarity with your night vision shooting solution, as well as prepare for active hunting at night such as pig or coyote hunting. We will cover working as a team and as single persons, patrolling and movement, concealment and camouflage, as well as incorporating tactical rifle shooting and advancing to the next level with night operations.

This class **REQUIRES** prior attendance to a tactical rifle class.

What do you need

Rifle with IR designator. NVG monocular or binocular. Helmet or other head mounting device for NVG.

Where will it take place

The range is in Waller County TX
